

R611 [tech brochure 01044](#)
Manifold locking nut.

Code	Description	Pk	Lbs
61191	1-1/4"	2	4.7

611 [tech brochure 01044](#)
Manifold adaptor to convert from 1-1/4" straight thread to 1-1/4" NP female.

Code	Description	Pk	Lbs
61185A	1-1/4" NPT female 1-1/4" male straight	10	7.5

612 [tech brochure 01044](#)
Manifold adaptor to convert from 1-1/4" straight thread to 1" NP female.

Code	Description	Pk	Lbs
61215A	1" NPT female 1-1/4" male straight	10	3.5

6561 [tech brochure 01044](#)
Thermo-electric actuator for use with return manifolds.
Power supply: 24V AC or DC.
Initial current draw: 100 mA.
Power consumption: 3 W.
Rating of microswitch contacts: 5A.
3 wire lead connection.

Code	Description	Pk	Lbs
656104	24V AC or DC	10	4.0

6561 [tech brochure 01044](#)
Thermo-electric actuator with microswitch for use with return manifolds.
Power supply: 24V AC or DC.
Initial current draw: 100 mA.
Power consumption: 3 W.
Rating of microswitch contacts: 5A.
3 wire lead connection.

Code	Description	Pk	Lbs
656114	24V AC or DC	10	4.0

6563 [tech brochure 01044](#)

TwisTop

Thermo-electric actuator for use with return manifolds.
Twist the top to manually open.
Power supply: 24V AC or DC.
Initial current draw: 100 mA.
Power consumption: 3 W.
Rating of microswitch contacts: 5A.
3 wire lead connection.

Code	Description	Pk	Lbs
656304	24V AC or DC	10	4.0

6563 [tech brochure 01044](#)

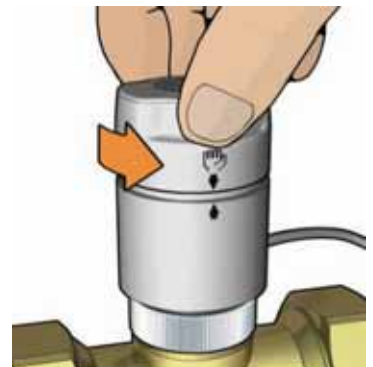

TwisTop

Thermo-electric actuator with microswitch for use with return manifolds.
Twist the top to manually open and close microswitch.
Power supply: 24V AC or DC.
Initial current draw: 100 mA.
Power consumption: 3 W.
Rating of microswitch contacts: 5A.
3 wire lead connection.

Code	Description	Pk	Lbs
656314	24V AC or DC	10	4.0

Simply twist to manually open actuator and activate microswitch on when power is applied it returns to auto position

Green ring indicates valve is open
